Course Description

This course explores the laws governing and/or related to the Internet and various forms of technology and spans numerous interrelated topics such as free speech, privacy, reproductive technologies and other medical and technological “wonders.” While the course draws extensively upon Anglo-American scholarship, legal texts, and case studies, it also introduces different philosophical foundations of free speech and other relevant concepts as various as privacy, property, and personhood, with the goal of providing conceptual tools for students to examine the laws and case studies in their home jurisdictions.
