3.00

UCEAP Semester Units

2.00

Course Description

If a child born to Japanese parents were raised by a Chinese national in China, legal issues aside, could the child really be called Japanese? Also, if a child born to an American couple were raised in a Japanese family in Japan, would that child have American characteristics? Therefore it can be said that people shape themselves through culture, which includes family relationships, language, eating habits, bodily movements, annual events, weddings, and funerals. This course focuses on traditional Japanese culture from the perspective of education and human development.
