3.00

Course Description

This course provides the necessary building blocks for conducting research and writing results in the form of a scholarly paper. Students are guided through the process of refining a research idea, writing a literature review, defending the methodology, and interpreting the results. The course pays special attention to necessary conventions of academic writing in English and introduces the basic concepts and methods of digital humanities. The course begins with a focus on the basic theoretical and technological issues involved in digital humanities research and explores the strengths and weaknesses of the new methodologies.
