

COURSE DETAIL

INTENSIVE LAB RESEARCH

Country

Japan

Host Institution

Tohoku University

Program(s)

Engineering and Science

UCEAP Course Level

Upper Division

UCEAP Subject Area(s)

Physics Mechanical Engineering Mathematics Materials Science
Environmental Studies Electrical Engineering Earth & Space Sciences
Computer Science Civil Engineering Chemistry Chemical Engineering
Biological Sciences Bioengineering Biochemistry Agricultural Sciences

UCEAP Course Number

186

UCEAP Course Suffix

D

UCEAP Official Title

INTENSIVE LAB RESEARCH

UCEAP Transcript Title

LAB RESEARCH

UCEAP Quarter Units

15.00

UCEAP Semester Units

10.00

Course Description

The Individual Research Training Senior (IRT Senior) Course is an advanced course of the Individual Research Training B (IRT B) course in the Tohoku University Junior Year Program in English (JYPE) in the spring semester. Though short-term international exchange students are not degree candidates at Tohoku University, a similar experience is offered by special arrangement. Students are required to submit: an abstract concerning the results of their IRT Senior project, a paper (A4, 20-30 pages) on their research at the end of the exchange term, and an oral presentation on the results of their IRT Senior project near the end of the term.
