UCEAP Course Suffix
UCEAP Official Title VOLCANOES, CLIMATE CHANGE AND SOCIETY
UCEAP Transcript Title VOLCANOES & SOCIETY
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

Volcanic eruptions can influence earth systems on a number of scales, from individual landforms to landscape development and global climatic change. Volcanic hazards can have global-scale social impacts and directly threaten the approximately 800 million people that live within 100 km of an active volcano. This course provides students with knowledge about volcanic environments, the hazards they pose on many scales, and potential benefits to societies.

Language(s) of Instruction
English
