UCEAP Course Number 117
UCEAP Course Suffix
UCEAP Official Title DEMOGRAPHY
UCEAP Transcript Title DEMOGRAPHY
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course provides an introduction to demography focusing on developing basic demography methods related to the measurement of vital events. These methods are then applied to study empirically (and theoretically) how demographic and economic changes interact with each other over time. Topics include measures of and economic and social determinants of fertility, mortality, and migration; as well as macro- and microeconomic causes and consequences of demographic transitions.
