Y

UCEAP Official Title ADVANCED ECONOMIC ANALYSIS

UCEAP Transcript Title ADV ECON ANALYSIS

UCEAP Quarter Units 12.00

UCEAP Semester Units

This course is divided into two sections introducing recent developments in economic theory and policy analysis. The first half of the course covers economic policy in the global economy. Students study the causes and consequences of international economic integration, focusing on how globalization affects the trade-offs that shape policy. Both theoretical and empirical analyses will be considered. Key topics include international trade, capital flows, migration, technology diffusion, taxation in the global economy, and the relationship between globalization and national sovereignty.
