UCEAP Semester Units
5.30

Course Description

This course examines the great contemporary problems of poverty and inequality within the context of a globalizing world. Sources and selected empirical cases of poverty and inequality are explored and related development theories and policies are examined. The geographical scope of the course ranges from local to international. One or more African languages may accompany English in some lectures or reading material. Coursework counts 60%; an examination counts 40% of the final mark.

Language(s) of Instruction
English
