Course Description

This course examines the application of legal considerations to the activities of organizations. The focus is on a practical approach to legal issues and problems that arise. If I want to start a business what structures are available to me, such as forming a company? When is a legal contract formed, how can it be breached and what remedies may be available? What rights do employees have in the workplace, particularly in relation to dismissal, redundancy and discrimination? How does the English Legal System work? How can my valuable original work be protected from imitation and what are copyrights and patents?
