COURSE DETAIL

INTERACTION DESIGN
Country Denmark
Host Institution University of Copenhagen
Program(s) University of Copenhagen
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Computer Science
UCEAP Course Number 131
UCEAP Course Suffix
UCEAP Official Title INTERACTION DESIGN
UCEAP Transcript Title INTERACTION DESIGN
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course provides an introduction to the key concepts, issues, and methods in human-computer interaction and interaction design. Through a combination of lectures and exercises, it covers usability, designing user-friendly systems, and evaluating user interfaces. The course discusses theories of human-computer interaction, the special challenges associated with the design of user-friendly interactive systems, advantages and disadvantages of different forms of interaction, building user interfaces and prototypes of user interfaces, and how to examine the usability of IT systems in a rigorous way.

Language(s) of Instruction
Danish
