3.00

Course Description

This course investigates the cosmopolitan ideal in academic discourse as well as in everyday political and social life. It explores cosmopolitanism in relation to debates in political theory and international relations as well as dynamics surrounding international migration, transnational advocacy networks, and global governance. The course also examines the cosmopolitan perspective in relation to key global issues, including the COVID-19 pandemic, global climate change, economic inequality, nuclear proliferation and the challenges posed by resurgent nationalism and authoritarian populism.
