UCEAP Quarter Units 4.00
UCEAP Semester Units 2.70

Course Description

This course aims to broaden knowledge in Medieval Japanese history. This is not a course that surveys the whole Medieval period in chronological order, based on a textbook with information that students should memorize. Rather, the course aims to think about the history of Medieval Japan from different perspectives; to think about the reasons of important historical developments, and to understand their context and mechanism. The topics of the course and the readings will change every year according to the focus of the class.

Language(s) of Instruction
English
