Course Description

The course offers a study of contemporary theories and best practices of gender mainstreaming in education; cultural facets of socialization to gender roles and how they interact with the organization of school and with hidden curriculum, also in an intersectional perspective; and comparing projects and actions in gender mainstreaming in education, both inside and outside the classroom. The course examines topics including: sociological perspectives on sex, gender, and sexual orientation; major theories and empirical research on socialization to gender roles; fender mainstreaming in education; anti-gender campaigns across European countries; and best teaching practices on gender mainstreaming in education in an intersectional perspective.
