Course Description

This course examines Korean development and capitalism from the political economy perspective, exploring how Korean capitalism emerged, what pathway it has taken, and how it will continue to evolve. This course covers various topics in the international and domestic political economy such as economic growth, culture and network, international investment and trade, democratization, globalization, the currency crisis in 1997 and the economic crash of 2008, institutional change and economic reform, restoring democracy in 2016-2017, global pandemic, social justice, and fairness. The main focus is on the roles and interests of governments, businesses, civil society, and foreign investors.
