

## COURSE DETAIL

### BIOTECHNOLOGY 3

**Country**

United Kingdom - Scotland

**Host Institution**

University of Edinburgh

**Program(s)**

University of Edinburgh

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Biological Sciences

**UCEAP Course Number**

111

**UCEAP Course Suffix****UCEAP Official Title**

BIOTECHNOLOGY 3

**UCEAP Transcript Title**

BIOTECHNOLOGY 3

**UCEAP Quarter Units**

8.00

**UCEAP Semester Units**

5.30

## Course Description

Biotechnology is an exciting subject that combines the application of knowledge and expertise in biochemistry, chemistry, genetics, microbiology, molecular biology, and physics. Biotechnology is relevant to several areas of activity: agriculture and food production; public health and medicines; ecological and environmental management; creation of novel products; development of new advanced techniques. Biotechnology is a very innovative scientific area and is well supported by UK Government Research Councils, in particular the BBSRC. Biotechnology also involves a high level of commercial activity, creation of new intellectual property and start-up companies, and job opportunities (requiring scientific, business and legal skills) in industry.

## Language(s) of Instruction

English

## Host Institution Course Number

BILG09014

## Host Institution Course Title

BIOTECHNOLOGY 3

## Host Institution Course Details

<http://www.drps.ed.ac.uk/22-23/dpt/cxbilg09014.htm>

## Host Institution Campus

University of Edinburgh

## Host Institution Faculty

School of Biological Sciences

## Host Institution Degree

## Host Institution Department

## Course Last Reviewed

2022-2023
