Course Description

This course analyzes the history and dialectology of Latin American Spanish, with special focus on Chilean history and linguistic documentation of the colonial and post-colonial eras. Topics include: the concept of Latin American Spanish-- unity and diversity, Latin American Spanish and Atlantic Spanish; the influence of Andalusia and genetic matrices; diastratic-diatopic variation and zoning; historical aspects-- periodization of Latin American Spanish; koineization and standardization processes; linguistic contact-- indigenous substrata and immigrant languages.
