UCEAP Official Title SOCIAL ENVIRONMENTAL PSYCHOLOGY
UCEAP Transcript Title SOCIAL ENVRNMT PSYC
UCEAP Quarter Units 8.00
UCEAP Semester Units 5.30

Course Description

This course explores classic and contemporary issues in environmental psychology. Topics include belonging, place attachment, and place identity; restorative environments, health, and well-being; perceptions of natural and urban environments; socially marked spaces and stigmatized environments; territory, boundaries, contested spaces, and environmental conflicts; pro-environmental action and environmental protection. Seminars are discussion-based and structured around weekly set readings that incorporate theoretical and empirical work, including quantitative and qualitative studies.
