UCEAP Transcript Title ENVIRONMENTAL HIST
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course introduces major themes in environmental history along with the historical study of the mutual influences of humans and the environment. After critically evaluating how the discipline of environmental history has developed, lectures and discussions focus on topics such as disease, agriculture, gender, and modern environmental problems. The course combines lectures with research assignments to understand how a historian approaches such a topic concerning the environment.
