Course Description

The purpose of this course is to provide students with opportunities to gain knowledge about the historical development of schooling and educational problems/difficulties in Japanese society as well as to consider the meanings and roles of education and schooling from different perspectives. The main focus is on the primary and secondary education in Japan; however, students will also examine other countries' education systems. This course consists of a mixture of lectures, discussions, and presentations. Students are also expected to give classmates a broader perspective on education systems/efforts/issues that will be discussed in this course.
