UCEAP Course Number 50
UCEAP Course Suffix
UCEAP Official Title LOGIC 1
UCEAP Transcript Title LOGIC 1
UCEAP Quarter Units 8.00
UCEAP Semester Units 5.30

Course Description

This course is an introduction to what is known as formal or mathematical logic, requiring no prior knowledge of philosophy or mathematics. It does not communicate results about logical systems but instead it imparts a skill - the ability to recognize and construct correct deductions and refutations. The course provides a general introduction to both propositional logic and predicate logic. Lectures and detailed handouts provide the central course material; and weekly tutorial groups provide support for students to work through the formal exercises.

Language(s) of Instruction
English
