5.00

UCEAP Semester Units

3.30

Course Description

This course looks at the role of education as a signaling device, labor market discrimination, job search models and their applications, decisions within households, and non-cognitive skills as human capital. The course covers both the theoretical model and the empirical evidence to support the model in each part. Students pay particular attention to policy interventions and their effectiveness. While the focus is primarily on the UK, comparisons with other countries will also be introduced.
