UCEAP Semester Units

3.00

Course Description

This course observes how speech is orchestrated to a choreography of the human body. It examines how meanings, abstract or concrete, are not only produced but actually performed on the interactional stage. The course provides an opportunity to observe facial expressions and co-speech gestures in silent movies and explore how speech production necessarily comes with gestural action. This multimodal course combines formal research seminars, animated classroom discussions, creative workshop sessions, and film screenings.

Language(s) of Instruction
