Course Description

In this bridge class on the A2/B1 level according to CEFR, students learn to understand sentences and frequently used expressions related to areas of most immediate relevance (e.g. basic personal and family information, shopping, local geography, employment). They study to communicate in simple and routine tasks requiring a simple and direct exchange of information on familiar and routine matters. Students work to describe in simple terms aspects of their background, immediate environment, and matters in areas of immediate need. In addition, students learn to understand the main points of clear standard input on familiar matters regularly encountered in work, school, leisure, etc. They deal with most situations likely to arise while traveling to an area where German is spoken. Students learn to produce simple connected texts on topics that are familiar or of personal interest. They acquire skills to describe experiences and events, dreams, hopes and ambitions and briefly give reasons and explanations for opinions and plans. Topics are taken from Berlin and German history and culture and also include politics as well as intercultural topics and current events.
