National Taiwan University

**UCEAP Course Level**

Lower Division

**UCEAP Subject Area(s)**

Biological Sciences

**UCEAP Course Number**

3

**UCEAP Course Suffix****UCEAP Official Title**

EXPLORING TAIWAN: BIOMEDICAL DEVELOPMENT AND DISEASES

**UCEAP Transcript Title**

BIOMEDICAL DEVT&DIS

**UCEAP Quarter Units**

3.00

**UCEAP Semester Units**

2.00

## Course Description

This course covers the most common but important local diseases, such as allergic diseases, viral hepatitis, tuberculosis, lung cancer, oral cancer, and COVID-19. It discusses pathogenesis, diagnosis, and management, as well as the development of biomedical technology for the prevention and treatment of these diseases in Taiwan. The course provides an opportunity to listen to guest speaker(s) about updated biomedical technology development in Taiwan and participate in a tour learning about the organization and functions of the National Taiwan University Hospital (NTUH).

## Language(s) of Instruction

English

## Host Institution Course Number

ClinMD5013

## Host Institution Course Title

EXPLORING TAIWAN: BIOMEDICAL DEVELOPMENT AND DISEASES

## Host Institution Campus

## Host Institution Faculty

College of Medicine

## Host Institution Degree

## Host Institution Department

Graduate Institute of Clinical Medicine
