Course Description

This course introduces the microsociology of small groups and subcultures and reviews the sociological theories and research methods used to understand them. It examines how small groups and subcultures structure social life, as well as how they form and change over time. The course discusses key social aspects of group and subcultures such as norms, social structures, leadership, conformity, power, inequality, conflict, and cooperation. It identifies the different social roles that exist in small groups and subcultures and considers how small groups and subcultures affect identity, deviance, emotions, and creativity. The course highlights the significance of small groups and subcultures for social life and individual biographies, and provides an understanding of the complex interplay between micro and macro forms of social interaction.
