Course Description
This course deals with economic issues which are related to many countries. It provides global perspectives of economic and business decisions. Topics include why countries trade, how they trade, who benefits and who loses from trade, and what are the best trade policies. The course also examines foreign direct investment and recent globalization issues. The course provides knowledge in the bases, direction, terms, volume, gains of trade, the effects of tariffs, quantitative restrictions, and international integration. Texts: R.C. Feenstra and A.M. Taylor, INTERNATIONAL ECONOMICS; R.C. Feenstra and A.M. Taylor, INTERNATIONAL TRADE; and various references. Assessment: final exam, midterm exam, homework assignments, participation in tutorials. Prerequisite: introductory micro and macro economics
