Course Description

1. Through teaching, students will have a preliminary understanding of the legal provisions, institutional design, and theoretical perspectives of China's tort law.
2. Enable students in class to have a preliminary understanding of the constituent elements of tort liability, which can be used to analyze cases and solve practical problems.

The first part is the General Principles of Tort Law (General Tort), including: the scope of protection in tort law, the principle of liability attribution, the constituent elements of general torts, and the reasons for reducing and exempting liability; The Distribution Rules of Majority Tort Liability

The second part is the specific provisions of the Tort Law (special torts and typical torts), including: guardian's liability, employer's liability, network tort liability, tort liability for violating security obligations, tort liability of educational institutions, and medical liability

Liability for medical damage, environmental pollution, high risk, animal husbandry damage, object damage, etc.
