UCEAP Course Number 113
UCEAP Course Suffix
UCEAP Official Title AGRICULTURE IN A GLOBAL CONTEXT
UCEAP Transcript Title AGRICULTR GLBL CNTX
UCEAP Quarter Units 4.00
UCEAP Semester Units 2.70

Course Description

This course introduces the extent of the global agriculture and food production and its geographic location. Through a combination of lectures and exercises, the first part of the course identifies the factors that influence and adjust the global need for and production of food, as well as of the global trade with food. It then looks at the impact of different climatic and soil conditions on plant and livestock production in specific regions. In the project work, students go into detail in an individual area.

Language(s) of Instruction
English

Host Institution Course Number
