Course Description

The course introduces development economics as well as applied problems in the field of development, and development strategies. It covers both conventional theory of development and economic growth and alternative strategies for sustainable development. Topics covered include resource mobilization, agricultural and industrial development, globalization, sustainable development and institutions, and the political economy of development. The discussion is both theoretical and applied with extensive use made of country and regional case studies. The course focuses on developmental challenges confronting South Africa and the rest of Africa. Assessment: coursework (50%) and a final exam (50%).
