SOC NETWORK ANALYS

UCEAP Quarter Units
5.50

UCEAP Semester Units

3.70

Course Description

This course focuses on data about connections, forming structures known as networks. Networks and network data describe an increasingly vast part of the modern world, through connections on social media, communications, financial transactions, and other ties. The course covers the fundamentals of network structures, network data structures, and the analysis and presentation of network data. Students work directly with network data and structure, and analyze these data using R.
