Course Description

Music is a fundamental activity found in all human societies and at all periods of history. This course introduces different methods of studying music as an academic subject, and considers the many ways that music intersects with other aspects of society. The course is recommended for potential music majors and any other students interested in music.

The course covers the following topics:

- Why study music?
- Histories of music
- Music theory and analysis
- The Sociology of music
- The musical mind – music and psychology
- The new ‘musicologies’
- Decolonization of music studies
- The economics and business of music
