### **Course Description**

This course examines regulation of technological platforms, the different types of platforms and forms of technology, and the challenges brought by Artificial Intelligence. It covers how platforms are regulated in the fields of hate speech and obscenity, defamation, privacy and data protection, copyright, and political communication; and the limits of competition law in the regulation of platforms. The approach will be comparative, though particular reference will be made to the law of Hong Kong, the United Kingdom, and the European Union.
