UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description

This course looks at how social factors contribute to individual physical and mental health outcomes using multiple theoretical frameworks developed in the U.S. and Europe. It examines how micro-, meso-, and macro-level factors influence an individual's health. Particularly, the course evaluates the health disparities research from Western Societies and discusses how these findings apply to Korea. It also discusses the implications of these findings on social welfare policies and social work practice in Korea.
