Course Description

By the end of the course, students will be able to:
[1] know different schools of social capital;
[2] distinguish the unique features of social capital in Chinese society;
[3] understand the relevance of social capital in terms of social support;
[4] demonstrate a basic ability to conduct independent inquiry on topics in social capital and to effectively communicate the results via oral presentation.

This course provides an overview of social capital research and its implication for individual mobility and social support. Topics covered in this class include the different schools of social capital, its individual and collective roots, how it relates to social support and individual health, , as well as its application for contemporary economic and social life. Through the course, students will obtain a richer understanding of social capital and its relevance to real life.
