## Course Description

This course examines the main theoretical approaches and discussions of the sociology of the educational system. It analyzes the main indicators and educational data for Spain and other countries. This course looks at educational policies and the assessment of the education system. It explores the relationship between social structure, economy, culture, and the educational system. Topics include: education as a socialization process; the social functions of the school; origins and evolution of the Spanish educational system; the provision of education and educational policies; reform and innovation in teaching; factors affecting education-- processes and education results, international assessments of educational performance and international studies on education, education and inequality, and education and employment in Spain; evaluation of the Spanish educational system-- main problems and major challenges; case studies of educational systems in advanced societies and in Latin America.
