UCEAP Course Number 106
UCEAP Course Suffix
UCEAP Official Title RESEARCHING SMART CITIES
UCEAP Transcript Title RESRCH SMART CITIES
UCEAP Quarter Units 3.00
UCEAP Semester Units 2.00

Course Description

This course provides the tools and methods for conducting independent, empirical research on smart cities topics. As such, the course provides the methodological and practical infrastructure for writing a seminar paper. The course addresses issues such as data generation and collection, choosing the research methodology, finding the appropriate analytic tools, and deriving socially-relevant insights from the research. All topics are illustrated using examples from the world of smart cities.

Language(s) of Instruction
English
