UCEAP Transcript Title MATERIAL WORLDS
UCEAP Quarter Units 8.00
UCEAP Semester Units 5.30

Course Description

In this course, students learn about contemporary archaeological and anthropological perspectives in the study of material culture. Questions that come up include: why the summer solstice is celebrated at Stonehenge; how houses differ across cultures; why we give each other gifts and wrap them; and how clothing gives us identity? Studying human-object relations from a range of perspectives, students explores the role of materiality and the consumer society.
