UCEAP Transcript Title INTRO ECONOMETRICS
UCEAP Quarter Units 3.00
UCEAP Semester Units 2.00

Course Description

Recently econometrics has explored almost every phenomenon occurring in societies around the globe. Its methodology affects nearby disciplines such as finance and industrial organization, business administration, marketing science, accounting; furthermore, sociology, politics, and history.

The emphasis of this class is on linear models with R. The objective is to learn what methods are available and more importantly, when they should be applied. Many examples are presented to clarify the use of the techniques and to demonstrate what conclusions can be made.
