## Course Description

This course uses PS1001 and PS1002 (taught at the University of St Andrews), as the foundation for a more advanced treatment of a number of areas in psychology. Course PS2001 complements PS2002; together, the two courses involve advanced treatment of the following areas of psychology: the relations between brain and behavior; cognition; perception; comparative aspects of behavior; social and health psychology. It also contains a methodology component covering laboratory and field techniques; no methodological grounding beyond PS1001 and PS1002 will be assumed.
