COURSE DETAIL

OUR CHANGING WORLD
Country United Kingdom - Scotland
Host Institution University of Edinburgh
Program(s) University of Edinburgh
UCEAP Course Level Upper Division
UCEAP Subject Area(s) Environmental Studies Biological Sciences
UCEAP Course Number 120
UCEAP Course Suffix
UCEAP Official Title OUR CHANGING WORLD
UCEAP Transcript Title OUR CHANGING WORLD
UCEAP Quarter Units 8.00
UCEAP Semester Units 5.30

Course Description

This is a challenging interdisciplinary first-year course, based on a series of high-profile, evening lectures given by prominent members of staff from the three Colleges. The course engages students in thinking about the global challenges that confront society, and makes them aware of the role of academic research and scholarship in meeting these challenges. Students are expected to address key global issues across discipline boundaries, and develop an understanding of the relevance and impact of their own subject in the broader context. Students in the course attend the public lectures, research the topics in depth, participate in facilitated group discussions on each topic, work in small groups to produce a collaborative project on a chosen topic, and produce an individual research report on an aspect which may be closer to their own subject area. Our Changing World is a pass/fail grade-only course.

Language(s) of Instruction
English
