UCEAP Semester Units

4.00

Course Description

The course covers human psychological development from childhood to old age and methods used in research in development psychology. It describes theoretical perspectives on personality and related fields of application. The course consists of four modules, this is the second module: Personality Psychology. The module covers the individual differences and different personality functions of adult individuals, which are viewed from different theoretical perspectives. The theories are presented together with a critical review of methods, testing, and fields of application.
