Physics Mechanical Engineering Mathematics Materials Science Environmental Studies Engineering Electrical Engineering Earth & Space Sciences Computer Science Civil Engineering Chemistry Chemical Engineering Biological Sciences Bioengineering Biochemistry Agricultural Sciences

#### **UCEAP Course Number**

186

#### **UCEAP Course Suffix**

C

#### **UCEAP Official Title**

INTENSIVE LAB RESEARCH

### **UCEAP Transcript Title**

LAB RESEARCH

### **UCEAP Quarter Units**

15.00

#### **UCEAP Semester Units**

10.00

# **Course Description**

The Individual Research Training Senior (IRT Senior) Course is an advanced course of the Individual Research Training A (IRT A) course in the Tohoku University Junior Year Program in English (JYPE) in the fall semester. Though short-term international exchange students are not degree candidates at Tohoku University, a similar experience is offered by special arrangement. Students are required to submit: an abstract concerning the results of their IRT Senior project, a paper (A4, 20-30 pages) on their research at the end of the exchange term, and an oral presentation on the results of their IRT Senior project near the end of the term.
