UCEAP Transcript Title PHIL/MENTAL HEALTH
UCEAP Quarter Units 12.00
UCEAP Semester Units 8.00

Course Description

This course is an introduction to the burgeoning field of philosophy of psychiatry. Against a solid historical background, the course sets out to present, examine, and discuss concepts fundamental to our understanding of mental illness (mind, body, self, person, rationality, emotion, normality/disorder), the meaning of psychopathology, the relationship between biology (genetics, evolutionary biology, and neuroscience in particular) and subjectivity, and the question of therapy (the values and norms of well-being).
