4.00

Course Description

The course covers human psychological development from childhood to old age and methods used in research in development psychology. It describes theoretical perspectives on personality and related fields of application. The course consists of four modules, this is the second module: Development in Adults. The module covers development during adulthood and the aging process based on theories of developmental, personality, and social psychology. Different aspects of aging are addressed, such as stress, mental and physical health, and ill health.
