## Course Description

The course deals with basic issues in finance, such as risk diversification and asset pricing, capital structure, investment valuation, market efficiency, dividend policy, and the use of derivatives. Prerequisites include BENC2004 or an understanding of the following finance concepts: Types of securities (stocks, bonds) and their returns; the concept of risk diversification and efficient frontiers, and principles of the time value of money. Exchange students need to have taken at least one introductory finance course.
