UCEAP Quarter Units 3.00
UCEAP Semester Units 2.00

Course Description

This course explores the process and mechanism of the economic development of modern East Asia from the 19th century to the present. East Asia, which includes Japan, China, Taiwan, Hong Kong, and the Korean Peninsula, is a rarity in that it has succeeded in economic catch-up with Western European and North American developed countries in the 20th and 21st centuries. This course highlights the relationships and interactions between the countries in the region.
