UCEAP Course Suffix
UCEAP Official Title THE ETHICAL BRAIN: PHILOSOPHY AND NEUROSCIENCE
UCEAP Transcript Title ETHICAL BRAIN
UCEAP Quarter Units 12.00
UCEAP Semester Units 8.00

Course Description

This course examines the past three decades' explosive surge in neuroscientific explanations of human nature, promising clear-cut biological answers to commonplace philosophical questions concerning rationality, emotion, behavior, values, and ethics. It explores to what extent such a promise is warranted, in particular concerning existential questions such as anxiety, responsibility, and religious faith.
