COURSE DETAIL

THAT'S LIFE: BIOLOGY TODAY
Country Netherlands
Host Institution Utrecht University – University College Utrecht
Program(s) University College Utrecht
UCEAP Course Level Lower Division
UCEAP Subject Area(s) Biological Sciences
UCEAP Course Number 12
UCEAP Course Suffix
UCEAP Official Title THAT'S LIFE: BIOLOGY TODAY
UCEAP Transcript Title BIOLOGY TODAY
UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course is designed for students in the Humanities or Social Sciences with no previous education in Biology. It may also serve as a remedial course for students with a high school Biology background insufficient for entering a regular level 1 Biology course. The course centers around three major themes: the basics of life, genes and evolution, and essential body functions. The course studies a wide variety of fundamental biological principles and concepts including the characteristics and basic units of life, biodiversity, the molecular basis of inheritance and genetics, origin of life and evolution, proliferation and differentiation of cells, principles of development and cancer, metabolism and energy, nutrition, health, nervous system and behavior, biological defense and communication, and reproduction and aging.
