UCEAP Semester Units

2.00

Course Description

An exploratory culture course for foreign students, Japanese Culture C offers insights into various aspects of the living culture of Japan. The course comprises of three basic approaches: Discussing certain cultural characteristics of the nation; reading some representative literature and conducting fieldwork at venues of cultural significance. Students can also enroll in Japanese Culture C; the course contents of both classes alternate between fall and spring semesters. Fall-only students can enroll in one class but may join fieldwork activities of the other class if there are openings available.

This course examines the interconnection between the history and culture of the Tohoku Region, including the rebuilding efforts from the 2011 earthquake and tsunami. It also addresses the variety of ways people have expressed themselves at different periods of history.
