Course Description

This course examines the use of digital editing for film and video projects. It covers the use of software programs such as Adobe Creative Suite to explain how to edit video files into a project and how moving images can be transformed over time in combination with text, masks, filters, effects and sound. Students will learn how to edit and master in Adobe Premiere Pro through an intensive series of tutorials film/video screenings and practical studio workshops. This will culminate in the production of a studio project.
